OLA 2: HTML & CSS

Due date: 11:59 pm Feb/10/2024

Step 1: Create a CV webpage in replit

Please create a new CV webpage in edStem. It should have the following:

1. a title

Such as John Doe's CV.

2. Education Background

You can use a list or table or any other HTML you prefer to display your educational background (Eg: high school, bachelor degree, master's degree and PhD).

3. Skills

You can use a list or table or any other HTML you prefer to display your skills (Such as programming languages or other software tools that you are good at).

4. Work Experience

You can use a list or table or any other HTML you prefer to display your work experience. (Please skip this if you don't have any research/scholarly activity.)

5. Research/Scholarly Activity

You can use a list or table or any other HTML you prefer to display your research/scholarly activity. (Please skip this if you don't have any research/scholarly activity.)

6. Awards

You can use a list or table or any other HTML you prefer to display your awards. (Please skip this if you don't have any awards.)

7. a Bookmark

Bookmarks to "go to the top" of your webpage

8. formatting

Use the formatting to highlight your importance.

9. Comments

Add necessary comments to your webpage.

10. Add CSS style to your CV webpage

You can add any style you like to your CV: color, background, font style, and so on.

Step 2: Add CSS style to your OLA1

You can add any style you like to your OLA1: color, background, font style, and so on.

Step 3: Please create a Navigation Bar

Please create a Navigation bar for your Home page and CV page. Your OLA1 personal webpage will be your home page in this project. The navigation bar can switch between your Home page and CV page. Please add the Navigation bar to both your Home page and CV page.

Step 3: Submit

Please submit your OLA2 by clicking submit in edStem.

Grading

There are 100 points in total. Here is the grading scale:

Part	Points
CV HTML	25 Points
CV CSS	25 Points
OLA1 CSS	25 Points
Navigation Bar	25 Points
